

KUMAR GAURAV

AI Engineer | Full-Stack AI Developer

Bengaluru, India | +91 9724080157 | kggaurav25674164@gmail.com

Portfolio: gaurav2567.github.io

PROFESSIONAL SUMMARY

Versatile AI Engineer with 5 years of professional experience in the data domain, specializing in Natural Language Processing (NLP) and production-grade AI automation. Expert in building end-to-end SaaS products, integrating LLMs (GPT-4, Claude), and architecting complex data infrastructures. Proven track record of delivering high-impact solutions for international EMEA clients and local business ecosystems.

TECHNICAL SKILLS

Agentic AI & LLMs: Generative AI (GPT-4, Claude), AI Agents (smolagents, LangGraph, LlamaIndex), Agentic RAG, ReAct Prompting, Function Calling, Multi-Agent Orchestration, Agent Observability.

AI & Machine Learning: Generative AI (LLMs, OpenAI API), NLP (Transformers, BERT, NER, Sentiment Analysis), Scikit-Learn, Pandas, NumPy.

Development & Automation: Python, WhatsApp Cloud API, Meta Developer Platform, Flask, Streamlit, Webhooks, API Authentication.

Data Infrastructure: PostgreSQL, Neo4j (Knowledge Graphs), MongoDB, MySQL, AWS (EC2, Lambda, S3, IAM), Render.

PROFESSIONAL EXPERIENCE

Stealth AI Startup (WhatsApp Automation Agency)

Jan 2025 – Present

Founder / AI Lead | Bengaluru/Udupi, India

- Architected an end-to-end SaaS platform utilizing the WhatsApp Cloud API to automate operations for Residential Welfare Associations (RWAs) and gated societies.
- Engineered custom admin panels and backend logic hosted on Render (PostgreSQL), enabling seamless shop creation and communication on WhatsApp.
- Managed full product lifecycle including technical development, cloud hosting, and regional market positioning.

Freelance AI Engineering (Upwork/EMEA)

Jan 2023 – Dec 2024

AI Solution Architect | Remote

- Developed automated financial discovery systems for EMEA clients, streamlining auditing, tax filing, and data entry processes using DocumentAI.
- Built Knowledge Graph applications to enhance data discovery and cross-functional search capabilities for enterprise datasets.
- Deployed custom LLM-powered chatbots for financial analytics, enabling natural language conversations with complex bank statements.

Prodigal

Jul 2022 – Dec 2022

NLP Analyst | Bengaluru, India

- Optimized call feedback quality and agent performance by ~15% through custom Speech-to-Text (NLP) solutions.
- Automated daily scorecard reporting and agency performance analytics for the credit lending sector.

Entomo

Oct 2021 – Jul 2022

Product Analyst | Bengaluru, India

- Developed a talent management R&D project (Knowledge Graph) that improved internal search speed by ~40%.
- Built a Job Street market intelligence dashboard using Streamlit, implementing matchmaking algorithms between CVs and Job Descriptions.

Dun & Bradstreet

Nov 2020 – Jul 2021

Data Analyst | Bengaluru, India

- Contributed to initial ESG project phases, designing data models and scoring frameworks in Python and Tableau.
- Awarded "Best Intern" for identifying high-impact trends through in-depth data pipeline analysis.

EDUCATION

ISBR Business School, Bengaluru **2021**

MBA, Operations Research & Data Analytics

Gujarat Technological University, Gandhinagar **2018**

Bachelor of Engineering, Computer Science

CERTIFICATIONS & AWARDS

- AI Agents Course Hugging Face (Building autonomous agents with smolagents, LangGraph, & LlamaIndex)
- Deep Learning & Machine Learning Specializations (DeepLearning.AI)
- Python for Everybody Specialization (University of Michigan)
- Quarterly Top Performer (Entomo) | National Level Football (India National Championship)
